Heroku :

https://intense-reef-73479.herokuapp.com/

Goals :

During the project , decided following type of tasks.

➜ **Learn modern front-end technologies.**

➜ **Learn framework Angular.**

➜ **Develop simple UI .**

Structure of project .

I've tried several types.

➡ **[Component - Data]**
Simple solution.

➡ **[Component - Service - Data]**
More perspective solution.

Problems...

Global state management for Angular applications.

Solution...

Add NgRx Store

Result : Create a modern application.
